## Seqirus Manufacturing Director Recognised at 2017 Women in Industry Awards

**Melbourne, Australia:** Lisa Lamb, Manufacturing Director for Products of National Significance at biopharmaceutical company Seqirus has been named winner of the Manufacturing Excellence category at the 2017 Women in Industry Awards hosted in Melbourne on Thursday 22 June.

The Women in Industry Awards recognise and reward the achievements of women working within the mining, engineering, manufacturing, process control industries and commercial road transport industries.

“I am delighted to offer our sincere congratulations to Lisa for this wonderful recognition. Throughout her career with CSL, Lisa has continually demonstrated valued leadership, innovation and commitment to our business and public health. It is wonderful through the Women in Industry Awards to be able to share and celebrate what we have always known about Lisa with the wider manufacturing community” said Gordon Naylor, President of Seqirus.

“The foundation of a successful business is its people and at Seqirus we are committed to empowering our people to achieve their leadership aspirations by creating a work environment that enables and supports our team to be the best they can be,” Mr Naylor said.

Lisa joined CSL Limited, 23 years ago as a medical sales representative in the commercial team; from there she has worked across a number of areas of the biologic business including brand manager for vaccines, planning, supply chain and now manufacturing.

As Manufacturing Director for Seqirus’ Products of National Significance (PNS), Lisa leads a team of 30 employees based across three operating sites in Victoria producing unique lifesaving products for the benefit of Australian public health.

The diverse PNS portfolio of products includes Q-Fever skin test and vaccine, along with 11 antivenoms for Australia’s most venomous snakes, spiders and marine animals.
